

Added Door Notes to Wood Door Machining Sheets

Software for Hardware has added the ability to display door notes on the *Wood Door Machining Sheets* reports. Now, when you add a door note and check the new *WDMS* checkbox those notes, as well as associated door number(s), will print in the bottom left margin of the sheet page corresponding to the elevation name.

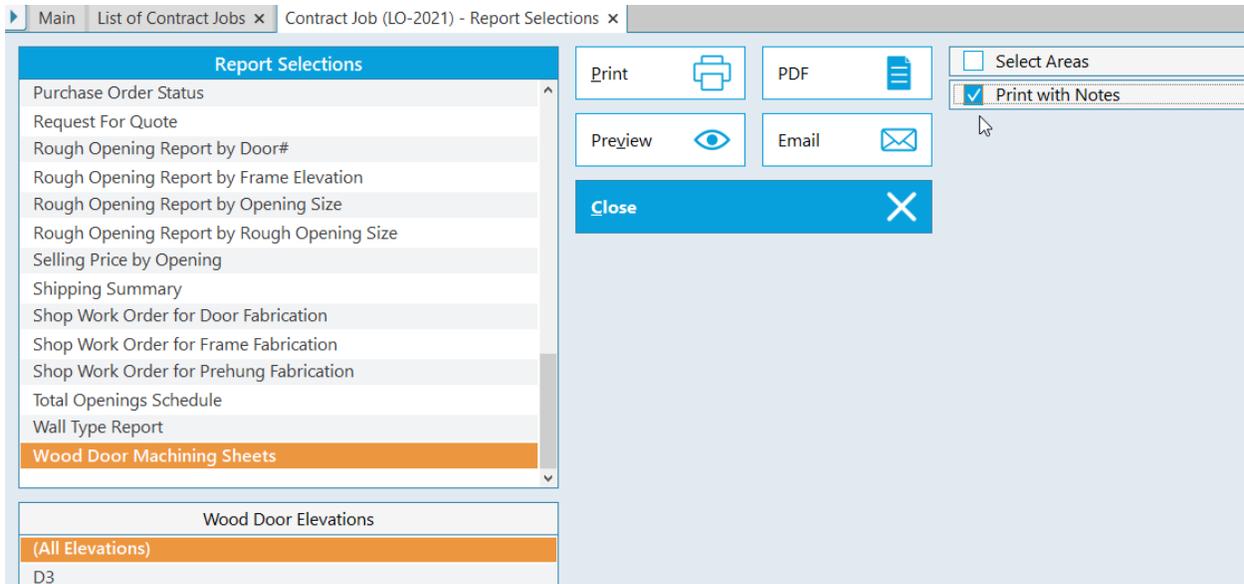

How it works:

1. Launch Software for Hardware and from the Logo screen click the *Contract Jobs* or *Contract Quotes* menu selection.
2. From the *Project* screen view the opening you want to add door notes to.
3. Click the *Notes* button and enter your desired door notes.
4. Enter your notes for the opening then click the *WDMS* checkbox. This informs Software for Hardware you want the notes for this opening to print on the *Wood Door Machining Sheets*.

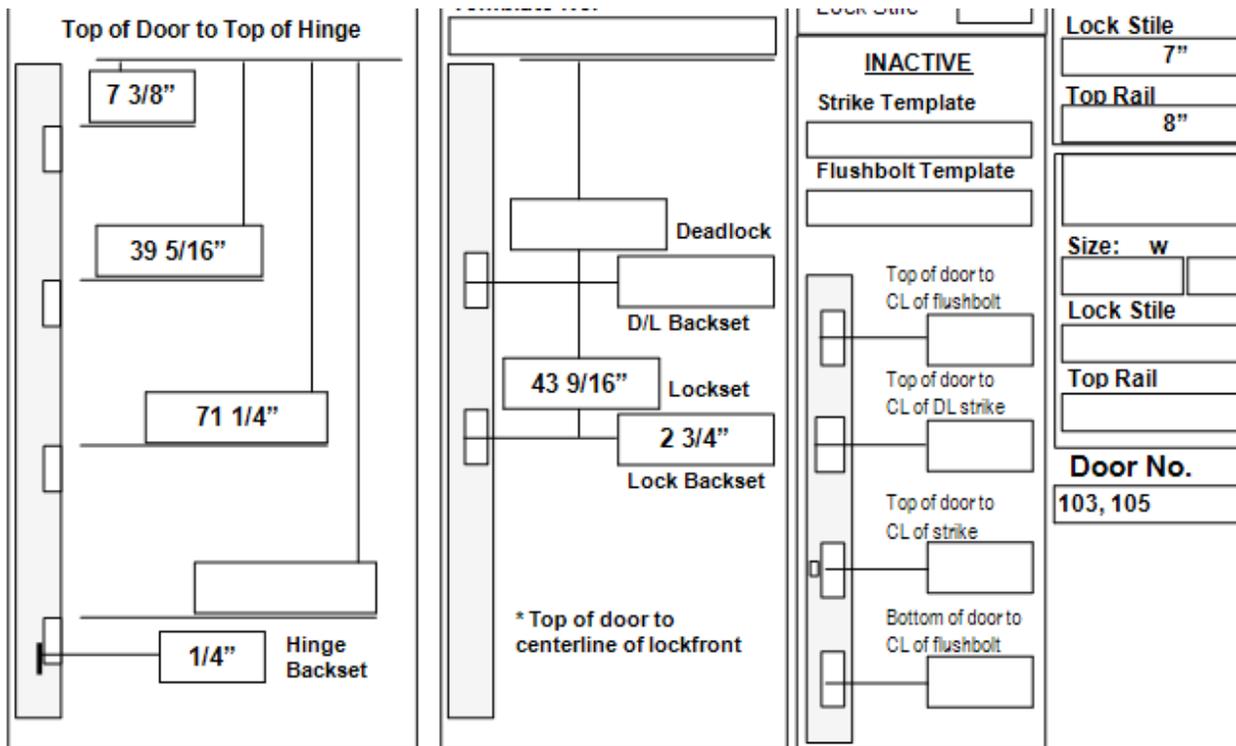

The screenshot shows a software window titled "Door# = 103". At the top, there is a formatting toolbar with options for Bold (B), Italic (I), Underline (U), Font (Times New Roman), Text Color (Black), and Font Size (12). Below the toolbar is a "Door Notes" section with a blue header. The main area contains the text: "This door has been changed from PS Birch to PS Red Oak." At the bottom, there is a section titled "Include these Door Notes on:" with several checkboxes: "Door/Frame Schedule" (checked), "Hardware Schedule" (unchecked), "Purchase Orders" (unchecked), "Fabrication" (unchecked), "WDMS" (checked), and "Internal Use" (unchecked).

5. Click the *Save* button.
6. Navigate to the *Reports* menu and select *Wood Door Machining Sheets*.

7. **Note:** the above example shows a new checkbox labeled, *Print with Notes*. Check this box to display door notes on the report.
8. Click *Preview* to generate the report to the screen.

Notes:
 103
 This door has been changed from PS Birch to PS Red Oak.

9. The entered door note is now displayed in the lower left margin of the sheet with door number designation.
