

Show Wall Type on Door/Frame Schedule

The Door/Frame Schedule now prints Wall Type below Anchor in the Frame Data section.

How it works:

Enter the Wall Type:

1. Open a contract job in Software for Hardware.
2. From the *Frame Tab* enter the desired Wall Type and click *Save*.

3. From *Grid Entry* enter the desired Wall Type and save.

Print Wall Type on the Door/Frame Schedule:

1. Open a contract job in Software for Hardware.
2. From the Project screen click the *Reports* menu.
3. Click *Door/Frame Schedule* from the list of reports.
4. Choose any filter combination and click *Print*, *Preview* or *PDF*.
5. *Wall Type* shares the same field as *Anch* and prints directly below the anchor. Due to field size constraints Wall Type is abbreviated to *W Type*.
