

## The main Project Grid now Supports Sortable Columns

Openings on the main *Project* grid can now be sorted in either ascending or descending order. Every column header, excluding *Leaf#*, contains the sorting diamond icon.

### How it works:

1. Notice all column headings have a diamond shaped icon in them. The *Leaf#* cannot be sorted as it would cause pairs to be separated in the grid. Thus, *Leaf#* does not contain the diamond icon.

21	2555			c	LH	3-0	7-0	1 3/4	
22	3000				N/A	3-0	7-0	1 3/4	

2. For example, to sort the grid in height order, simply click the diamond icon in the *Height* column header. This will sort the grid in Ascending order with the shortest height first. Note in the image below the diamond icon has changed to an upward pointing triangle denoting ascending order.

21	200 W1				N/A	2-8	8-0	1 3/4	
22	201A				LH	3-0	8-0	1 3/4	

- Click the triangle again and the grid will sort in descending order with the tallest first to the shortest. Notice the triangle icon is pointing downward.
