Frame Component Reports

This new enhancement gives the user the ability to print detailed frame component reports in the Frame Component Inventory Master just as in the Frame Inventory Master. The report will print stock or non-stock reports.

How it works:

- 1. Launch Software for Hardware.
- 2. From the Logo screen click *Tables*.
- 3. Click the Frame Component Inventory Master from the drop-down menu.

E Software For Hardware	
Eile <u>C</u> ontacts Contract <u>J</u> obs Contract <u>Q</u> uotes Sales <u>O</u> rders Sales <u>P</u> roposals <u>R</u> GA	Stock Purchase Orders Combine Purchase Orders PO Status Monitor Jables Help Software Accessory Markups & Multipliers Accessory Markups & Multipliers Accessory Types Accessory Inventory Master Door & Frame Price Books Door Attributes Door Inventory Master Frame Attributes

- 4. Select a Manufacturer and Material Category.
- 5. Click *Print* from the menu.
- 6. The following report selections appear.

nvert to Non-Stock Mass Change/De	elete Calculator I	Print View Non-Stock Print with Selling Price	_		
	Manuf	Print with Selling Price (rounded) Print with Inventory Counts		Material Category	
Steelcraft		Print Inventory Sorted By Jamb Depth Print Inventory with Acct ID Num		Hollow Metal	-
Profile 1		Print Inventory Frame Component Report Print Non-Stock Frame Component Report Print QR Codes	oth	Face Width	
			-		

7. Below is a short example of the *Non-stock Frame Component Report*:

Width Values

Non-stock Frame Component Report
