

## Label and Material Fields on General Tab

On the General tab there are four new fields containing door and frame label and material information. These fields are populated from their respective Door tab and Frame tab fields. They are for viewing only and cannot be edited – *this feature is for reference only*. If you need to change a value in one of the associated fields you must navigate to the Door or Frame tab to do so.

### How it works:

1. Launch Software for Hardware and from the Logo screen open a Contract Job.
2. Double click on an opening in the grid, or, select an opening in the grid and click the *View Opening* button.
3. The General tab opens.

The screenshot shows the 'General' tab of a software interface. The interface is divided into several sections:

- General:** Includes a 'Quantity' field with the value '1', an 'On Hold' button, and a 'Product Type' dropdown menu set to 'Door/Frame'.
- Material Category:** A table with two columns: 'Doors' (set to 'Wood') and 'Frames' (set to 'Hollow Metal').
- Dimensions:** Three dropdown menus for 'Width' (3-0), 'Height' (6-8), and 'Thickness' (1 3/4).
- Hardware:** A 'No Hardware' checkbox, which is currently checked.
- View Areas:** A 'View Areas' button.
- Interior/Exterior:** Radio buttons for 'Interior' (selected) and 'Exterior'.
- Door Hand:** A dropdown menu set to 'N/A'.
- Summary Table:** A table with columns for 'DOOR' and 'FRAME', each with sub-columns for 'Label' and 'Material'.

DOOR		FRAME	
Label	Material	Label	Material
UL 20M	RC Birch	20 minute	CRS

4. The new fields are located near mid-form. Notice, the fields are filled with values from the associated fields on the Door and Frame tabs.
