New Company Options Screen

This enhancement is a long needed feature. The *Company Options* screen has been redesigned from the random placement of Preferences, to a logical layout filtered by category.

How it works:

- 1. Launch Software for Hardware.
- 2. From the Logo screen click File.
- 3. Choose *Optional Settings*.
- 4. Select *Company*.
- 5. The new Company Options screen appears.

- 6. The redesigned screen is now divided into the following categorical sections:
 - a. Rounding Options
 - b. Change Orders/Packing Slips/Preps
 - c. Accounting Software
 - d. Tables
 - *e. Discount/Labor/Markup* %
 - f. Freight/Tax/Discounts/Labor
 - g. Functionality
 - h. Numbering Sequencing

- i. Printing Options
- 7. If you have custom programs that require settings on this screen they will appear either under the *Printing Options* section, or, another section called *Misc*.
